

**Propelling  
Business  
Forward**

Good for you! You decided to look into a Customer Relationship Management (CRM) software for your business. Searching for that perfect fit requires extensive research, but it shouldn't be difficult.

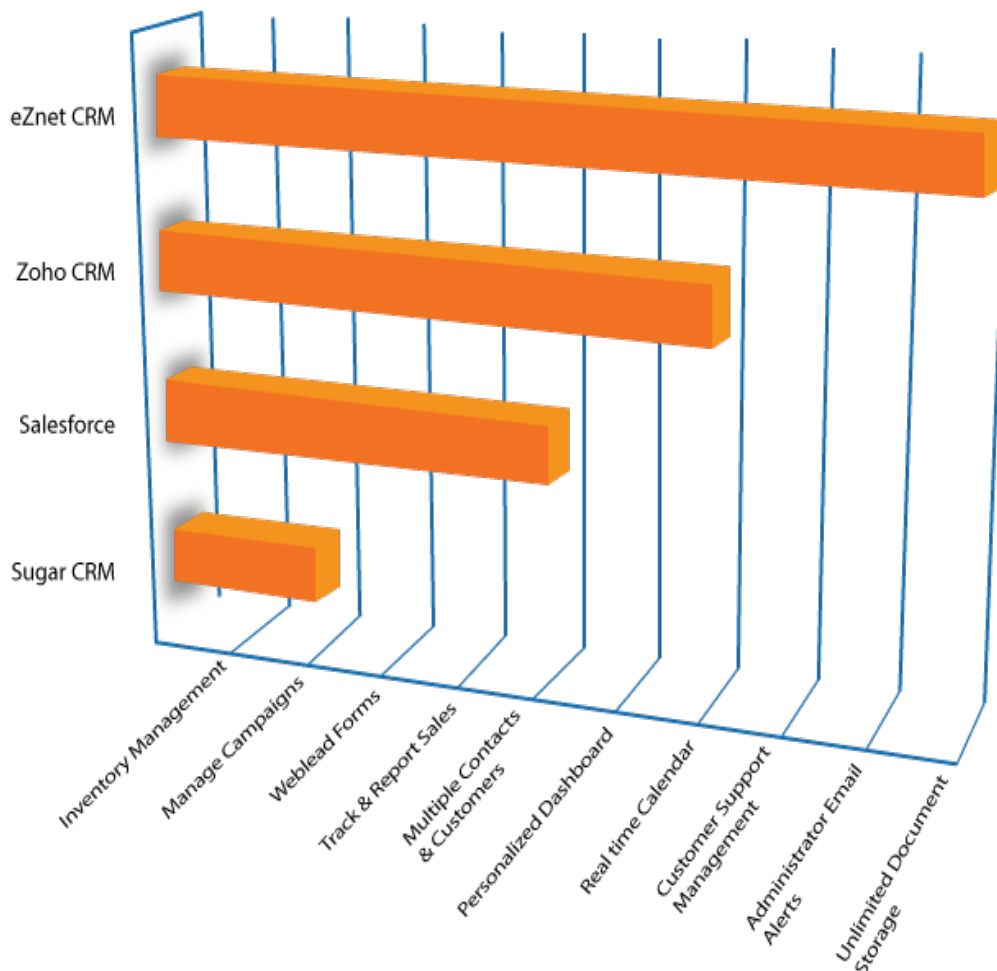

- Would it improve my business?
- Is it user-friendly?
- Does it accommodate shifting business models?

If you answered yes to those questions, then you are making the right decision for your business. The need to effectively manage sales processes and customer relationships has occurred because consumer behaviors have evolved in the past 5 years.

eZnet CRM will usher your business into a new wave of technology that will blow your competitors away while flawlessly handling customer issues in a timely manner. Develop a long-lasting relationship with your customers and drive productivity throughout your organization.

eZnet CRM works by gathering consumer data (leads) and analyzing the information to recognize market conditions. Provides a seamless way to interact with customers on an advanced level by incorporating real-time support in the Ticket feature\*. Customers will notice your mutual efforts immediately.

### Compare The Overall Functions<sup>1</sup>

Examine other CRMs and compare the features and functions. Based on your business and customer needs, you find that other CRMs may satisfy only 50% of your requirements.

<sup>1</sup> The comparison feature chart contains information generally available to the public believed to be accurate as of the date it was compiled. eZnet CRM has used its best efforts to compile this pricing information but makes no warranty whatsoever either expressed or implied as to accuracy.

\* For Professional and Enterprise subscription only.

Whether you are a new startup or already have several hundred employees, eZnet CRM can help you accelerate your business success. It incorporates your current business model and improves the processes you already have in place. The fully customizable and scalability solution also allows the software to evolve with your business.

The dashboard is your control panel and is the main component for the entire CRM. It provides an easy navigation for the end-user with intuitive interface and is compatible with all modern internet browsers,

Create your own CRM and upload logos, locations/branches, time zones, etc. Modify the dashboard to suit the needs of your business; append and remove functions that only pertains to your business.

Discover the limitless possibilities. Cloud computing is the future. Prioritize your customer support structure seamlessly. Accessing stored information from anywhere minimizes the concern of utilizing external storage devices that may malfunction over time. Cloud storage provides the elasticity of resources without paying premium prices.

eZnet CRM has everything you need from a CRM and more, including unlimited space<sup>2</sup> to store your most important documents. This is not the everyday CRM, and because it's in the cloud you never have to worry about losing them. We conduct nightly backups so there are no interruptions in your daily workflow. Our global cloud servers will guarantee 99.99% uptime and our support center is available 24/7 via email, chat or ticket.

The eZnet CRM website offers secure payment methods specifically designed to encrypt and protect your personal information.

Watch for a few seconds to see how eZnet CRM can work for you and your business.

eZnet CRM gives you the power to forecast profitable ventures based on past and recurring data by generating comprehensible reports. This makes it easy to strategize future marketing campaigns and minimize uncalculated risks.

The software pays for itself, the Return of Investment (ROI) for eZnet CRM is extremely high because we are reasonably priced compared to other CRMs on the market to accommodate small business budgets. Reduces the cost of administration and boost productivity; your staff will accomplish more in their workday.

Use your analytical reports tools to identify prospective and existing opportunities and launch campaigns targeting the right customers. Gather inventory items to create consistent and accurate quotes.

The Customer and Ticket modules combine to give your business the professional structure it deserves. It enables you to pinpoint issues and take corrective action promptly.

eZnet CRM streamlines your communication process within and outside your organization.

Have unlimited access to your data anywhere you go.  
On-demand information deployment  
available anytime, anywhere.  
Never worry about losing your most  
precious information, it safely secured in the cloud.

eZnet CRM mobile applications are available for all subscriptions, specifically for the busy executive.

Never be out of reach with information while traveling. Have access to current information with fast deployment and assist in reducing customer tension. The app is an invaluable tool that delivers accuracy and user-friendly interface, compatible with both Android™ and Apple® mobile devices.

Create leads and opportunities, generate quotes and schedule events and tasks with the app without transferring data from devices. Data is synchronized at the moment of input.

Gather and store documents, generate quotes and schedule events via smartphone. Documents are readily available for import and export. The eZnet CRM works with the document formats that you already have and rapidly uploads them in a central location.

eZnet CRM gives you complete visibility and control of your business on-the-go. In the mobile application, you will find a specialized dashboard geared towards your business management solutions. Take advantage of opportunities and sift through contacts with ease.
